

Open Source Software & Strategies (OSS) Wiki

This Wiki offers articles on [Open-Source software](#) and relevant [strategies](#). We are open for new authors and offer some [incentives](#).

Strategies

Why does Open Source software exist? What strategies are followed by companies with these free and open solutions? These questions are answered in this section.

- [Crowdsourcing](#)
- [FUD \(Fear, Uncertainty, Doubt\)](#)
- [Loss Leader](#)

Concepts

Important concepts of Open Source development projects are described in this section, including:

- [Network effect](#)
- [Lazy consensus](#)

Best Practices

Read which practices are already performed in organizations:

-  Fix Me!

Case Studies

We discuss real-life cases of Open Source technologies in this section:

- How [Facebook's](#) innovation is based on Open Source and crowdsourcing
- An examination of the [Subversion](#) project
